

RFI – Street Sweeping Project

1. Can the bid due date be postponed while we deal with the threat of Hurricane Dorian?

Answer: No, we are not postponing the bid.

2. We are not clear on the amount of miles that need to be swept. For example Royal Palm Beach Blvd is about 7 miles long. In the bid it says "Centerline Length 3.82 Miles", "Curb Miles 7.36 Miles", "Median Miles 3.98 Miles". How do we determine the total sweeping miles per month for each road? Do we add up Centerline Length + Curb Miles + Median Miles?

Answer: Miles are correct; the total miles for each roadway/subdivision are/is the curb miles and median miles.
